MEDIA RELEASE

DATAFLEX SIGNS OPERATIONAL PARTNERSHIP WITH MAHINDRA SATYAM

Canberra based IT services company, Dataflex, today signed a strategic partnership with IT infrastructure provider Mahindra Satyam (Mahindra).

Dataflex is one of Australia's leading IT service providers to Australian Federal Government.

This partnership positions Dataflex strongly to respond to the ongoing demand from federal, state and local government for secure, cost effective, Australian based infrastructure with advanced national roll out capability.

Mahindra has 600 locally engaged staff, across their offices in Sydney, Melbourne, Canberra, Brisbane and Perth, with pre-approval for an additional 300 staff to support its expanding Australian operations.

Dataflex forms part of that expansion strategy.

" Partnering with Mahindra provides our clients with the operational capacity of an international partner, that is significantly invested in the Australian market place. Says Brian Evans, Dataflex Managing Director.

" We are particularly impressed with Mahindra Satyam's increased Australian operations, and ongoing capital investment within Australia" Says Evans.

" There is a dynamic synergy between our companies — our specialised knowledge and expertise in the Australian Federal Government delivery combines with Mahindra's proven capacity to deliver national infrastructure to Australia's top corporations, including ASX top 500 companies such as Quantas, Suncorp & ANZ.

The partnership expands upon the diversity of dataflex's operations, and falls in line with the company's mid to long term strategy to develop and position the business to continue to respond to demand, in advance of market.

Dataflex Corporate Profile

Dataflex is an all-encompassing Information Technology (IT) service provider with a presence in the Australian market for over two decades.

We supply IT design, provision and support services, including helpdesks, networks, storage, voice communications, disaster recovery and backup arrangements, and cloud computing implementations.

A customised approach is key to our success as one of Australia's leaders in supplying government IT services.

Our focus on versatility and adaptability, and our relationship with top-tier providers allows clients to access a range of trusted products via a single service entry point.

Our clients are supplied with integrated environments that address business challenges and allow them to achieve sustainable excellence in their IT strategies.

Dataflex is Bureau Veritas certified, our quality management systems are verified to the AS/NZS ISO 9001:2000 standard, and we've won many awards as a business partner and solution provider for the government and education sectors.
